

Ei1025

Temperature, Humidity and CO2 Environmental Sensor

The Ei1025 is a temperature, humidity and CO2 environmental sensor powered by a built in 10 year lithium battery. It connects wirelessly to the Ei1000G SmartLINK Gateway to provide actionable insights on the health of a property via the HomeLINK Dashboard and Resident App.

Key Features

- Gather data on indoor environmental conditions
- Provides risk insights including condensation, damp, mould and indoor air quality
- Connection to Ei1000G SmartLINK Gateway required to extract data
- Easy to install and manage
- Suitable for wall and ceiling mounting
- 10-year lithium battery

Technical Specification

Sensor Type:	Temperature, Humidity and CO2
Supply Voltage:	3V Lithium battery (non-replaceable)
RF Frequency:	868.2MHz band (1% duty cycle)
Typical RF Power:	8.1 dBm
Max RF Power:	+14 dBm
RF Range:	> 100 Metres in free air ¹
Receiver category:	2
RF Protocol:	RadioLINK2
System size:	Up to 12 RF device ²
Data upload:	Via the Ei1000G Gateway
Fixing:	Screw fixing and base plate supplied
Temperature Range:	-10°C to 40°C
Humidity Range:	15% to 95% Relative Humidity ³
Plastic material:	PC/ABS & HIPS, UL94 HB rated
Dimensions:	Product - 70mm x 70mm x 34mm
Weight:	81g
Warranty:	5 year (limited) warranty
Approvals:	

Compliant with Radio Equipment Directive 2014/53/EU

Manufactured to ISO 9001 quality standards
Specifications are subject to change

1. Obstructions of any sort will result in a reduction in range from the free space specification. The range may vary depending on installation.

2. Please contact us for further advice if additional RF devices are required.

3. Temperature and Humidity conditions are for normal operation and storage. Units will function outside these ranges as required by the specific product Standards. Extended exposure to conditions outside these ranges can reduce product life. For advice on prolonged operation outside these ranges consult the manufacturer.
